Why should YOU prepare an award nomination?

- Celebrates the dedication, hard work, and contributions by our colleagues
- Recognition has positive benefits (e.g., career advancement, continued funding, strengthened communities)
- Professional achievement awards are typically unevenly and inequitably distributed*...we can all work to improve this by cultivating a nomination mindset

*(Holmes et al. 2020; Lagisz et al. 2023; Muller-Karger et al. 2022)

Canvassing committee goals

- Increase number and breadth of nominations for awards
- Encourage representation across entire CERF community
- Support nominators with training and advice

Background

Outcome of 2023 CERF achievement awards committee workshop (ACCESS+ grant)
